PROFESSIONAL SUMMARY

Data & Analytics professional with proven experience acting as both **Business Analyst and Project Manager** across financial reporting, data quality, and regulatory initiatives within Global Banking & Markets. Skilled at **bridging business and IT teams** by translating complex data requirements into functional specifications, designing data quality controls, and delivering audit-ready documentation. **Strong finance background** with hands-on expertise in **SQL, ETL automation**, and financial **data governance** across banking products, transactions, and performance analytics.

EXPERIENCE

Goldman Sachs (Global Banking & Markets)
Senior Business Intelligence Analyst

Salt Lake City, UT
June 2023 – Present

- **Internal progression:** *Summer Analyst (2023-24) → Analyst (2024-25) → Senior Analyst (2026-Present)*
- Engineered automated ETL workflows using **Alteryx** and **SQL** to **support 100+ users**, **reducing** manual reporting **hours by 50%** and significantly improving data reliability for financial reporting.
- Developed dynamic **Tableau** dashboards to visualize complex transaction structures, translating raw data into actionable insights for **senior stakeholders**.
- **Optimized data infrastructure** to process large-scale columnar datasets, ensuring 100% accuracy in financial validation models and fee transaction analytics.
- **Led cross-functional project delivery via Jira**, maintaining critical control dashboards and enabling comprehensive oversight across multiple teams.
- **Expanded Scope:** Currently leading AI-exploration strategies, designing infrastructure to support predictive analytics and enhancing the validation of complex financial calculation models.

Work of Artists (*Fashion Design*)
